(applicable to all Brownstown system users at September 1, 1999 without a Class A membership)	

(e) Tapping Fees

Each user at the time he or she is connected with the water distribution system, shall pay a charge to cover the costs of tapping the main, furnishing and laying service pipe, corporation and stop cocks, service and meter box and installing the meter. The charge for a 5/8 inch meter tap shall be \$1,300.00.

The charge for a tap larger than the 5/8 inch meter tap shall be the cost of labor, material, power machinery, transportation and overhead incurred for installing the tap, but shall not be less than the charge for a 5/8 inch meter tap, 1,300.00.

Added to the tap fees charged above shall be the actual cost of all highway and county permits.

To the extent that a user requests the opportunity to make payments of the tap fee in installments due to the financial burden of paying the entire tap fee at the time of connection; the Company may accept an agreement to make an initial payment of \$600 at the time of connection with the remaining \$700 of the tap fee paid monthly over 36 months as part of the user's monthly bill for water service from the Company.

(f) Collection and Deferred Payment Charges

All bills for water service not paid within seventeen (17) days from the due date hereof as stated in such bills shall be subject to the collection or deferred payment charge of ten percent (10%) of that part of the delinquent account which does not exceed \$3.00 plus three percent (3%) of any delinquent amount in excess of \$3.00.

(g) Meter Fees

A trip charge of \$39.00 will be made for final meter readings, initiation of new water service, turning off any existing water meter, or turning on any existing water meter. If meter service is requested for multiple meters, all being located at the same service address, a single trip charge of \$39.00 will be made for all such meters.

(h) Charges for Billing/Collection Information Changes

A charge of \$1.00 will be made to the rural customer for each addition or deletion or change required to be made by the utility in billing and collection information supplied to the billing collecting agent or department.

(i) Reestablishing Service After Disconnect

If a customer being served as voluntarily requested, its service fee discontinued; or if service has been disconnected for nonpayment by such customer; and the customer thereafter seeks reconnection within 12 months following the date of disconnection; the customer must pay all bills due and payable which shall include the minimum monthly rate times the number of months the service has been discontinued and all other applicable charges due to such disconnection.

(j) Disconnect/Reconnection Charge

When the service is turned off for nonpayment of bill, or whenever for any reason beyond the control of the waterworks a reestablishment of service is required by any one customer, this charge will be made by the waterworks to cover the cost of discontinuance and reestablishment of service during the period of 8:00 a.m. to 3:30 p.m. weekdays (except holidays). The charge, together with any arrears due the waterworks, shall be paid by customers before service will be reestablished.

Disconnect Charge	\$ 60.00
Reconnect Charge	\$ 39.00

Should a disconnect service call be made as a result of nonpayment of bills, but the meter is not turned off because payment of the full amount is made, there shall be a service charge of \$60.00 for the service call, payable at the time of the service call.
